

# IT'S SUMMER & WE'RE IN DROUGHT.

We guarantee your turf is harvested at 4AM on the day of delivery and delivered fresh.

QLD is in drought, there is very little rain forecast and this is the hottest time of year.

## ***Our Recommendations:***

- Laying your turf on the same day as delivery
- Watering for an hour at 6AM & 6PM while your lawn establishes
- Watering at 6AM & 6PM daily all Summer long (October – April)
- Keeping your lawn hydrated

## ***Watering & Maintenance is the clients responsibility.***

*Any turf replacement requests will incur normal supply and delivery fees.*
